179	39½	279
180	40	280
181	40½	281
182	41	282
183	41½	283
184	42	284

DENOVO general purpose molar bands are made in regular temper and narrow occlusal- gingival height. These bands, designed with maxillary and mandibular shapes, have universal anatomy to fit both 1st primary, 2nd primary, and 1st permanent molars. Each band is fully proportioned to provide a gradual increase in height as band size increases.

Sizes are available from 23-42, with ½ sizes available for precise fitting. The bands are completely festooned.

To use the order form at left:

1. Enter the quantities for each item in the white boxes (upper bands on the left, lower bands on right).
2. If you require complete part numbers for a purchase order, add the prefix 160 to all part numbers (an upper size 25 band has a part # of 160-150).
3. Quantity discounts are available for your total order. Add up all of the bands ordered to find out

Total Bands ordered	Price per band
1-29 bands	Retail
30-49 bands	5% discount
50-99 bands	10% discount
100 or more	15% discount
